

Electronic Analytical Balance

FA2204E External Calibration

FA2204E-N Internal Auto Calibration

1. High precision electro-magnetic sensor system
2. Round stainless steel weighing platform
3. Auto zero setting and Tare
4. Counting and Unit conversion
5. Overload and fault alarm
6. Net weight and Stability indication
7. Bubble level and adjustable feet

Model	FA2204E	FA2204E-N
Capacity	220g	220g
Division	0.0001g (0.1mg)	0.0001g (0.1mg)
Minimum Weight	0.0004g	0.0004g
Calibration	External (Calibration weight included)	Internal automatic calibration
Power	DC with supplied 220V/50Hz AC adapter	DC with supplied 220V/50Hz AC adapter
Display	7 digit backlit LCD	7 digit backlit LCD
Pan Size	80 mm diameter	80 mm diameter
Repeatability	±0.0002g	±0.0002g
Linearity	±0.0003g	±0.0003g
Stabilization time	≤3 sec	≤3 sec
Operating temperature	5 ~ 35°C	5 ~ 35°C
